Gentlemen:

A short time ago I became the owner of the following equipment:

1. 16mm Bell & Howell projector and case, model 129D, 750 watts, 1600 feet capacity, 6 projecting lenses, extra 750 watt bulb, reels and cans.
2. Victor model 5 16mm camera and case, with f 1.5 Taylor-Hobson lens, and f 2.9 Hugo Meyer lens.
3. Bell & Howell viewer-editor.
4. Bell & Howell titler.
5. Bell & Howell tripod.
6. Miscellaneous: splicer, Thalmeyer Sr. tripod, reflectors, and screen.

I have been taking 8mm movies for the past 5 years and therefore would like to sell the above 16mm equipment which is all like new, for about 50% discount of list price. I might even consider fine 8mm equipment in trade and I am addressing this letter to you, knowing that some of your members are also interested in movie work. I would appreciate very much your letting your friends know about this and announcing it at the club. If you will recall, I exhibited some movies at your club some time ago.
Thanking you very kindly, I am,

Very truly yours,

Paul A. Leeb
